Subject: Forbes Road

Tim or Tim,

I am working on the petition to reconstruct the existing grade crossing on Forbes Road. Everything looks good at this point. This kind of project has been delegated to staff so it doesn't have to go before my commissioners. I would like to get the order out this week or early next week. One thing I need from you is confirmation that CBRW has no objection to the proposed reconstruction of the crossing and the proposed level of protection.

A simple response to this e-mail would be fine.

Thank you.

Paul
