Subject: TR-101473 E Main St Sidewalk Improvement project

To Kathy Hunter:

I would like to withdraw our petition TR-101473 due to the fact that the E Main St Sidewalk Improvement project scope has been limited and we will not be changing the physical configuration of the railroad crossing. Initially, we were hoping to place additional concrete sidewalk in the railroad right-of-way but due to financial constraints we altered the scope of the project at the railroad crossing. Currently, we are only proposing to repair the buckling that is occurring adjacent to the tracks by removing the existing asphalt and resurfacing only that area with new asphalt. There will not be additional asphalt area nor will the type of surfacing change. Per our conversation, it was your recommendation that commission authorization is not required for this limited activity.

Thank you for your help with everything,

Marit Ernst, E.I.T.
