Ms. Kathy Hunter, Deputy Assistant Director  
Transportation Safety  
Washington Utilities & Transport Commission  
1300 S. Evergreen Park Drive, SW  
Olympia, WA 98504

Reference: Docket TR-110539

Dear Ms. Hunter:

This letter requests that the referenced petition be modified, in light of time constraints to complete the project, to show installation of light emitting diodes (LEDs) in place of installation of train detection circuitry at the US Highway 2 crossing on Eastern Washington Gateway Railroad. The amended paperwork should already be in your possession.

Eastern Washington Gateway Railroad hopes to work with the Utilities & Transport Commission at some point in the future to upgrade train detection circuitry for the crossing at US Highway 2.

Thanks and best regards,

John K. Howell, President

***Section 8 – Illustration of Proposed Warning Devices***

Attach a detailed diagram, drawing, map or other illustration showing the proposed modification.
