January 13, 2012

Mr. David Danner, Executive Director and Secretary
 Washington Utilities and Transportation Commission
 P.O. Box 47250
 Olympia, WA 98504-7250

Re: Docket No. UE-011595, Monthly Power Cost Deferral Report, December 2011

Dear Mr. Danner:

Enclosed are an original and five copies of Avista Corporation's Power Cost Deferral Report for the month of December 2011. The report includes the monthly energy recovery mechanism (ERM) accounting journal together with backup workpapers. In December actual net power costs were lower than authorized costs by \$2,604,847. The year-to-date difference is \$19,208,401 in the rebate direction. A deferral of \$2,344,362 was recorded in the rebate direction. The year-to-date deferral balance, excluding interest, is \$12,787,561 in the rebate direction.

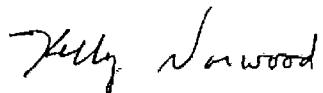

Actual power supply expense was lower than the authorized level due primarily to low power and natural gas prices. Wholesale power and natural gas prices were both lower than expected with the actual wholesale power purchase price at \$37.27/MWh compared to an authorized rate of \$54.80/MWh, and the actual natural gas price at \$3.27/dth compared to an authorized price of \$5.71/dth. Hydro generation was 37 aMW below the authorized level.

Colstrip and Kettle Falls generation was 9 aMW above and 1 aMW above the authorized levels, respectively. Gas-fired generation was 29 aMW above the authorized level. The net transmission expense (transmission expense less transmission revenue) was below the authorized level. Washington retail sales were 8 aMW above the authorized level.

Interest is calculated pursuant to the Settlement Stipulation approved by the Commission's Fifth Supplemental Order in Docket No. UE-011595, dated June 18, 2002. Interest is applied to the average of the beginning and ending month deferral balances net of associated deferred federal income tax. The Company's weighted cost of debt is used as the interest rate. The interest rate is updated semi-annually and interest is compounded semi-annually. The January and July reports contain the supporting workpapers for the semi-annual updates of the weighted cost of debt used in the interest calculations. Page 12 of the July 2011 report shows the calculation of the weighted cost of debt at June 30, 2011, which was used for the July-December 2011 period.

Attachments A, B, C, and D each consist of a non-confidential, forward long-term contract of one year or longer entered into in the month of December 2011. If you have any questions, please contact Bill Johnson at (509) 495-4046 or Ron McKenzie at (509) 495-4320.

Sincerely,

A handwritten signature in black ink, appearing to read "Kelly Norwood".

Kelly Norwood
Vice President State and Federal Regulation

Balance in account	<u>\$4,531,671</u>

Changes Semiannually on January 1 and July 1				
The rate is based on Avista's actual cost of debt, updated semiannually.				
The actual cost of debt calculated at 6/30 will be used for the interest calculation from July through December.				
The actual cost of debt calculated at 12/31 will be used for the interest calculation from January through June.				
Interest will be accrued monthly and compounded semi-annually.				
Interest is calculated using the prior month ending balance plus 1/2 month of current month charges times the current after tax interest rate				
Actual cost of debt at 12/31/10 is	5.614%	Actual cost of debt at 06/30/11 is	5.617%
