Re: Time Schedule No. 71

Mr. Danner:

Enclosed please find Time Schedule No. 71 to replace Time Schedule No. 70. The new schedule will adjust our daily trips to and from Sea-Tac Airport, and will improve and provide more efficient service options for the general public during the winter travel season. This new schedule adjusts our arrival and departure times for Sea-Tac Airport to better fit passenger flight arrival/departure times, based upon the past twelve months passenger flight reservation data. This new Schedule adjusts the last departure from Seatac Airport, from 1:20am to 12:35am, as reservation history does not show a public need or necessity for the 1:20am departure during this time of year. We are requesting the schedule to become effective on Friday, January 18, 2013, through LSN approval by the Commission, in order to provide this improved Schedule, and an exemption from customer notice requirements (WAC 480-30-316), as all services provided are by reservation only. There is good cause (WAC 480-30-326) to allow this Schedule No. 71 to become effective on our requested date based upon the detailed analysis of passenger flight data, public need and necessity, and the fact that our services provided require reservations for every passenger.

Sincerely,

John E. Fricke
