The following is my voluntary statement regarding this police report:

I AM UNSURE OF THE TIME OF THE INCIDENT OF A TRESPASSER STRIKE BY A BNSF FREIGHT TRAIN, BUT MY IMMEDIATE CALL TO 911 TO REPORT THE STRIKE SHOULD GIVE YOU THE TIME.

I WAS AT MY DESK, WORKING FOR AMTRAK WHEN A BNSF FREIGHT TRAIN HEADING NORTHBOUND PASSED MY STATION. AS SOON AS THE HEAD ENGINE PASSED THE AMTRAK STATION, A LADY (UNKNOWN NAME) WITH A SMALL CHILD IN A STROLLER STARTED BANGING ON MY EMPLOYEE GLASS DOOR. THE ACCOMPANYING TRAIN BRAKE NOISE WITH THE TRAIN STARTING TO SLOW MADE ME AWARE OF WHAT THE LADY WAS ABOUT TO TELL ME AS I OPENED THE DOOR, SHE STATED THAT SOMEONE WAS SEATED ON THE SOUND TRANSIT BENCH JUST SOUTH OF THE AMTRAK STATION AND AS THE TRAIN APPROACHED THE MALE PERSON RAN TOWARDS THE TRAIN WITH HIS ARMS STRAIGHT OUT FROM HIS BODY. AS I CALLED 911 TO REPORT THE INCIDENT, IT WAS NOTED THAT THE MALE BODY CAME TO REST BETWEEN THE RAILS OF THE TRACK AT THE CORNER OF THE AMTRAK STATION. I DID NOT ACTUALLY SEE THIS INCIDENT.

NARRATIVE

On 04-19-2015 I responded to the train station at 211 Railroad Ave in Edmonds, WA to assist with a train and pedestrian collision.

When I arrived, I was asked to work with the other members of the traffic unit to forensically map the scene using Total Station.

I walked the scene of the incident and used paint to mark various pieces of evidence to include the following items:

- Approximate point of impact
- Left shoe
- Part of a leg/foot
- Glasses
- Body part
- Watch
- Sock
- Body
- Right shoe
- Brain matter

Traffic Sgt Roth, Traffic Detective Falk and I then used Total Station to map the scene. This concluded my involvement in the incident.

NARRATIVE

I responded with other Edmonds officers to a reported train versus pedestrian collision initially broadcast as being at Railroad Ave and Dayton St in Edmonds. I arrived on scene first at the Dayton St railroad crossing. I saw a freight train stopped across the crossing but no people present there or on the east side of the tracks. I climbed across the train cars and began checking along the west side of the tracks. In approximately the 200 block of Railroad Ave, I could see lying between the tracks, a shoe with a foot inside and a portion of a leg.

I radioed this information in and continued checking. I saw two males waving me toward them, still on the west side of the tracks, just south of the Amtrak station. They pointed out a body lying between the tracks underneath one of the train cars. The body had massive trauma to it including head trauma to the point where the person was obviously deceased. I also radioed in this information. I spoke with the two males who I did not identify at that point. They said it appeared that the person had intentionally jumped in front of the train. I asked them to remain on scene to complete a written statement.

I later got statement forms to these two males and asked them to turn in their statements to any of the officers at the scene. I assisted at the scene by blocking off sidewalk and parking lot access to the scene. I walked around the train from Dayton St going north, around the engines and then back south to Dayton St. The only other evidence I saw was at Main St where there was a small amount of what appeared to be brain matter lying on the pavement. A WSP trooper was at that location preserving that scene. I advised Ofc Falk of the location of this.

I then assisted pedestrians who needed to evacuate from the west side of the tracks in climbing over an open train car, to allow them to get out of the area, I had been informed at the time that Burlington Northern officials had given permission for this to occur. When the train moved, I assisted with traffic control and then departed from the scene.

Case Report #2016-00009430

NARRATIVE

On 04-19-2016 I was dispatched to a train versus pedestrian collision at the train depot at 211 Railroad Ave. The weather was clear and it was dry. When I arrived I contacted the BNSF train conductor, Brian Durkee, on the platform. He pointed me in the direction of the male that jumped in front of the train. He was under one of the rail cars, between the rails; it was obvious he was deceased. Brian told me he and the engineer, Joseph Jaeger, were the only two people on the train. He said they were blasting the horn at the time the male subject ran and jumped in front of the train. Brian said other BNSF emergency team had been notified and were on their way to the scene. Once the aid crew arrived I escorted them to the deceased. I then assisted in securing the scene with crime scene tape. When the medical examiner arrived at the scene I escorted them to the deceased. I later contacted Brian and Joseph in the cab of the engine. They both told me the train was traveling north and sounding the horn when the subject ran in front of the train. They wanted me to know the horn was functional so they tested it in my presence; it was loud and clear. They wrote statements, which I included with my statement.

I used orange paint and marked the location of the front and rear axles of the train engine. I photographed the engine at its point of rest before and after marking the axles. Sgt. Roth, Officer Sackville and I then used the total station to forensically map the evidence and area. Sgt. Roth sighted the total station, I entered the information into the data collector and Officer Sackville manned the prism pole. We completed the mapping process at approximately 1630 hours.

I later entered the photos into evidence.

End of statement.

Case Supplement Report

Case Report #2016-00009430

NARRATIVE

On 04/19/16 at about 1210 hours I heard Edmonds PD patrol officers get dispatched to a vehicle/pedestrian collision in the area of the Amtrak Station which I know to be in the 200 block of Railroad Avenue. Detective Sergeant Richardson assigned me to respond to the scene along with other detectives at about 1227 hours.

I arrived on-scene at the Amtrak Station at about 1229 hours and met with Corporal Ramseur, the patrol supervisor. I could see a yellow emergency blanket draped over what I was told was the deceased subject's body underneath one of the train cars south of the Amtrak building. Corporal Ramseur handed me a witness statement from a female witness identified as Kadi Cook, and explained that Cook was standing on the train platform as the train approached. She saw a male subject step in front of the moving northbound train in a deliberate fashion. He was struck by the train and was obviously deceased now. Corporal Ramseur stated at least two additional witnesses to the incident were along Railroad Avenue on the other side of the train, and requested I contact them to get their statements. Detective Mehl joined me.

I crossed an open train car to get to Railroad Avenue and contacted Peter Mongillo. Mongillo was carrying a tripod and large video camera. He explained he works for KOMO 4 News and was assigned earlier in the morning to get video footage of the Edmonds waterfront area as today was a warm sunny day. He parked on Railroad Ave about 75-100 yards north of the Edmonds Senior Center on Railroad Ave and was in the process of getting ready to set up his gear when he saw the northbound train approaching while blaring its whistle. The crossing bars lowered across Dayton St with the lights flashing on it. As the train approached the Amtrak station Mongillo saw a male subject jump into the path of the train and get struck by it. Mongillo ran to check on the subject to see if he made it across the tracks and saw he was clearly deceased underneath one of the cars.

Mongillo said there were numerous other people in the vicinity at the time of the incident, but didn't think anybody else witnessed the actual incident as there was nothing occurring to otherwise draw anyone's attention to the scene immediately prior to the impact. Mongillo said that although he couldn't say specifically that the male's act of jumping in front of the train was intentional, it definitely didn't look like it could have been accidental. I gathered Mongillo's witness statement. He declined my offer to have a chaplain meet him.

I met with Detective Sergeant Richardson who requested I bring the Crime Scene Van to the Amtrak Station. I drove to Edmonds PD and returned with the van. On my return Detective Sergeant Richardson requested I video the scene, stating that Detective Honnen had already videod the scene from Dayton St. to an area just south of the Amtrak Station that he pointed out to me. I recorded the scene and walked north along the tracks toward the front of the engine which was stopped approximately 100 yards north of Main St.

During this video session and search along the tracks I saw items of clothing, a clearly dismembered leg, the emergency blanked-covered body of the victim, and various small items such as pieces of clothing, wristwatch, eyeglasses (front frame), and various small pieces of flesh or similar unidentified body parts. As I reached Main St., I saw what I recognized as likely being some brain matter on the roadway underneath one of the sidecarriage pieces of one of the train cars. I reached the engine at the front of the train and Officer Falk pointed out to me what he recognized as likely being the victim's head impact point on the front of the engine, visible as a circular dark spot several inches in diameter. Underneath and slightly to the right of this dark spot lying on part of the train's frame were both side earpieces for a set of eyeglasses. I videotaped these as they lay as well. I later turned the camera over to Detective Honnen. I remained on-scene until 1537 hours and then cleared.

Witness statements of Cook and Mongillo are attached.

This concludes my involvement in this case.

	Case Report # 2016-00009430

NARRATIVE

On April 19th, 2016 at approximately 1210 hours dispatch advised of a pedestrian vs train collision located at 211 Railroad Ave, Edmonds, Snohomish County, Washington. I arrived on scene and observed that the train was stopped on the tracks. I began walking along the eastside of the train walking northbound. As I walked I observed a grey and green shoe underneath the train in the center of the tracks.

As I walked farther north I observed what appeared to be a severed left foot just to the right of the tracks several feet north of the shoe. The foot appeared to be cut off just under the knee in the calf area. There was cloth around the ankle of the foot which appeared to be part of some pants the person had been wearing. The foot was twisted and appeared to be broken. There was what appeared to be bodily fluids and blood in the center of the tracks just north of the foot. Blood spatter was lining the cement just east of where the foot lay. As I continued to walk north along the train I observed a body of a Caucasian person. I couldn't identify if the body was male or female.

The body was lying face down between the rails. Officer Hardwick placed a medical blanket over the body for privacy. I saw a bench in a waiting shelter close by which had several personal belongings on it, with no one around it. There was a black backpack sitting on the corner of the bench, a black wallet with a driver's license clearly displayed on it, a single hotel room key, a cell phone, and a water bottle which was lying on the ground in front of the bench. The driver's licence belonged to Michael Dean Chance, born 5-26-1973, from Wichita Kansas.

A witness approached me named Kadi Cook who told me the following: Cook had been sitting at a bench in a shelter waiting with her son to see the train. Cook stated that a man was sitting at the bench next to her with what appeared to be his belongings. Kadi stated that the train began to approach northbound on the tracks, at which time she took her son to the platform nearby to watch the train. Kadi said as soon as the train passed the crossing located at Dayton Street, the male sitting on the bench next to her got up and began to run straight for the train. Kadi stated that she saw the male with his arms stretched out at his sides as he ran straight in front of the train which struck him as it drove by. Kadi filled out a statement form which is available upon request. I offered Kadi the assistance of a chaplain, which she declined.

I put up crime scene tape blocking off the walking paths in front of the train and the entrances to the parking lot. I took photos of the scene and have submitted them into evidence. Detectives and traffic units took over the scene, please see there reports for further information. After I was given approval I began to assist pedestrians that wanted to get from the west side of the train to the east side of the train. After the train was moved I assisted with traffic control.
