Re: Contract between Lehman Enterprises, Inc. and Palmer's Mutiny Bay Homeowners' Association

Dear Mr. King:

Enclosed is a copy of the temporary water meter connection agreement between Lehman Enterprises, Inc. and Palmer's Mutiny Bay Homeowners' Association located within Island County, and serviced by WB Waterworks, DOH ID #466703.

This temporary meter connection is needed due to the halt in construction of the new water main and service line project (Filing UW-170180). The halt in the project is due to high groundwater, and is on hold until warmer weather brings lower groundwater levels. This connection is also needed due to the current source of water for Palmer's Mutiny Bay Homeowners' Association is lacking in quantity and quality (high in nitrates). Lehman Enterprises, Inc. is capable and willing to supply potable water of a higher quality than the current source is able to provide. This temporary connection has also been approved by Virpi Salo-Zierman with Washington Department of Health.

This contract has been approved by the Palmer's Mutiny Bay Homeowners' Association, and signed by the president, Ron Sanford. It has also been signed by the president of Lehman Enterprises, Inc. Adam Lehman.

Please do not hesitate to call me at 360-661-7781 if you have any questions.

Sincerely,

Culley Lehman  
Lehman Enterprises, Inc.
