Re: Application for Transfer of Bacus Road #1 Water System to Northwest Water Services

Dear Mr. King,

Please find enclosed our application for transfer of the Bacus Road Water System to Northwest Water Services. This is a system which was run by the previous owners of Lake Alyson Water and Tjetland Water Systems. They are dissolving their corporations and partnership and have transferred the system to Northwest Water Services.

In the application for transfer is the following:

1. Letter from Consolidated Utilities, Inc., formerly Lake Alyson Water, Inc
2. Application for transfer (with exhibits)
3. Signed copy of Instrument of Transfer
4. Income statement, Balance Sheet, Asset Listing, Depreciation Schedule for Northwest Water Services, LLC
5. Consolidated Utilities Balance Sheet
6. Copy of the customer notice telling them of the sale and transfer of the Bacus water system.
7. Revision of tariff sheets: Index page and Service Area

We look forward to working with you to help get this system up and functioning properly with a long-range plan and an objective of producing better quality water in a more efficient and effective way than they have had in the past.

Sincerely,

Carol Rofkar & Kelly Wynn,
Owners, Northwest Water Services
