UTIL. AND TRANSP.
COMMISSION

Dear Mr. Santos:

On June 13, 2017, Radiate HoldCo, LLC, a Delaware limited liability company and an indirect wholly-owned subsidiary of Radiate Holdings, L.P. (“Radiate”) and Wave Holdco, LLC (“Wave”) sent by certified mail a letter informing you of a proposed transaction between Radiate and Wave in which Radiate would acquire all the outstanding membership interests of Wave, including Astound Broadband, LLC (“Astound”), which is currently registered as a competitive telecommunications company the state of Washington (Docket UT-09016, February 28, 2009) (The “Transaction”). On June 22, 2017, you confirmed receipt of the letter via email to Jim Penney and requested written notice of consummation.

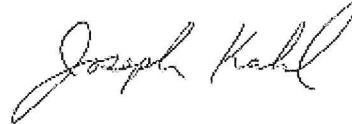

Radiate and Wave have obtained approval from the Federal Communications Commission for the transfer of control of the Wave authorizations to Radiate, and the parties have obtained all other required regulatory approvals. As a result, the Transaction closed on January 24, 2018.

While as a result of the Transaction, indirect control of Astound changed from Wave to Radiate, Astound’s legal name and its status as a company duly registered to do business in Washington has not changed, and Radiate has no current plans to change the local operations or structure of Wave’s and Astound’s Washington operations, or the services offered by Wave and Astound. Pursuant to WAC 480-121-063, this notice satisfies all state requirements related to transfer of the registration.^{1/}

^{1/} See WAC 480-121-063(k) (competitively classified telecommunications companies are not subject to the requirement in 80.12 RCW that the Washington Utilities and Transportation Commission approve transactions involving ownership of public service companies). Astound Broadband, LLC is a competitive telecommunications company. See *Registration of Astound Broadband, LLC as a Competitive Telecommunications Company*, Utilities and Transportation Commission, Docket No. UT-090160 (Feb. 28, 2009).
