RE: Transmittal of Shuttle Express Tariff No 11 Revisions issued 12/01/2017

Dear Mr. King:

Shuttle Express requests approval of the submitted Tariff No. 11 revisions with a requested effective date of January 1, 2018, in accordance with the tariff revision rules. The submitted revisions reflect several changes as outlined below:

- Removal of locations from the listing of “Locations Served with Scheduled Service”
- Removal of time schedules for locations that have been removed from scheduled service
- Removal of rate schedules for locations that have been removed from scheduled service

All locations where scheduled service has been removed are still served by shared ride door-to-door services in rates that follow the structure of the tariff as previously approved for door-to-door rates. Additionally, we have attached the public notice we believe is required under the rules as they exist today.

These routes are being removed due to the reduced efficiency and financial burden with the current use of smaller vehicles and public desire for shorter wait times, and a more “express” service. These routes were originally designed for the use of larger vehicles, and an assumption of density which previously existed but no longer does. The public will still be able to be serviced through the approved door-to-door rates, as well as by additional transportation methods to and from SeaTac Airport which have developed over the past several years.
