

WN U-2

**SECOND REVISED SHEET NO. 56
CANCELING FIRST REVISED SHEET NO. 56**

RAINIER VIEW WATER COMPANY, INC.

SCHEDULE 16
GENERAL FACILITIES CHARGE

A. Applicable:

To all applicants for water service on systems served by the utility for properties not currently served, when water system capacity is available as defined by the number of connections authorized by the Washington State Department of Health, and where adequate quantity and quality are available.

B. Rate: \$1,549.00 per ERU plus
\$412.00 for Federal Income Tax effect per ERU (Beginning in 2018, the Tax Cuts and Jobs Act of 2017 has made contributions in aid of construction taxable as part of the gross income of a corporation.) (N)
|
(N)

For upsized meters, see Condition C.6. (T)

C. Conditions:

1. ERU is defined as equivalent residential unit. One ERU generally equates to a 3/4" or smaller residential connection. This means that ERUs are related to meter size. The number of ERUs for any project is associated with the nature of the project and type of connection. For example, for a residential development that is approved for ninety single family houses and has two irrigation connections, the project would be assessed at 92 ERUs. A commercial project is generally assessed by size of meter, although it can vary depending on fire protection requirements. The utility shall determine the number of ERUs for a project based upon the greater of water use demands, fire flow requirements and other project considerations or meter size; provided, that, if the project considerations support use of a 1" or 1 1/2" meter, the utility may require use of a 2" compound meter to capture low water flows that a 1" or 1 1/2" meter may not measure accurately. In the case where the utility requires use of a 2" compound meter to capture low water flows in lieu of a 1" or 1 1/2" meter, that 2" meter will not be used as the basis of calculating the number of ERUs for the project. Where meter size is used to determine ERUs, the meter size to ERU relationships, as developed by the American Water Works Association (AWWA) are set out on the Table in Condition C.6. (T)
