REQUEST FOR WRITTEN COMMENTS
(By 5 p.m. on February 28, 2019)

and

NOTICE OF WORKSHOP
(Set for 9:30 a.m. on March 21, 2019)

Re: Commission Staff Electric Service Reliability Reporting Inquiry
Docket UE-190027

TO ALL INTERESTED PERSONS:

On January 10, 2019, Commission staff provided to the Commission a formal report, entitled "Reliability Reporting Inquiry."

The Commission is interested further in the subject of Commission staff's detailed inquiry. In particular, the Commission wants to foster conversations between interested stakeholders to address reliability reporting, discuss the findings of the staff inquiry, comment on Commission staff's recommendations to improve electric service reliability reporting, and consider the relationship between aggregate benchmarking and investment planning.

The Commission, therefore, requests written comments on Commission staff's Reliability Reporting Inquiry by 5 p.m. on February 28, 2019.

To assist in understanding what, if any, improvements may be needed regarding electric service reliability reporting, Commission staff will hold a workshop on March 21, 2019, beginning at 9:30 a.m., in Room 206, Richard Hemstad Building, 1300 S. Evergreen Park Drive S.W., Olympia, Washington. All interested persons are invited to attend.

The staff Reliability Reporting Inquiry is available on the Commission's website under [Annual Reliability Reports of Electric Companies](#).

If you have questions regarding this request for comments or the workshop, you may contact the staff lead, Jason Ball, at (360) 664-1279, or by email at jason.ball@utc.wa.gov.
