Proposed rate change

On August 26, 2019, Pacific Power & Light Company (Pacific Power) submitted an advice filing with the Washington Utilities and Transportation Commission (Commission) requesting a change to Schedule 98, Adjustment Associated with the Pacific Northwest Electric Power Planning and Conservation Act. This schedule provides residential and other qualifying customers with a direct pass-through of monetary benefits received from the Bonneville Power Administration (BPA) under the Residential Exchange Program (REP).

If approved by the Commission, this proposed change will result in a decrease to the credit of .087 cents/kWh, for an overall average increase to eligible customers of approximately 0.5 percent. A residential customer using approximately 1,200 kilowatt-hours (kWh) per month would see a bill impact of \$1.05 per month. The Commission will examine Pacific Power's request. As a result of this examination, the Commission may determine that the schedule should be accepted as filed, modified, or rejected. If accepted as filed, the rate change would go into effect on October 1, 2019.

You are invited to comment to the Commission. The Commission has the authority to set final rates that may be lower or higher than the Company's request, depending on the outcome of its examination. You can comment by using the "Submit a Comment" feature on the Commission's website at utc.wa.gov, or by using the following contact information. Commission staff will make a recommendation
