Termination of Puget Sound Energy Natural Gas Schedule 74 Gas Conversion Burner Rental Service

Dear Valued Customer,

Effective November 1, 2019, Puget Sound Energy (PSE) received approval from the Washington Utilities and Transportation Commission to end its gas conversion burner rental service on March 31, 2020 (Service Termination Date).

This letter serves as formal notification of the termination of the gas conversion burner rental agreement for the above-referenced service address. You will have the option of either taking ownership of the rented gas conversion burner or having the equipment removed.

In conjunction with PSE's discontinuance of this service, when you choose the option to take ownership of the rented gas conversion burner, you will receive a one-month rental charge credit in consideration for taking ownership. You will also be eligible to receive a rebate up to [insert amount] on a future purchase of an energy efficient furnace.

To take ownership of your rented gas conversion burner, please review, sign and send the enclosed Bill of Sale in its return mail envelope to PSE by March 31, 2020. This same form may be reviewed and signed electronically at [insert link].

If you acquire ownership of your rented gas conversion burner, your gas conversion burner requires periodic inspections and maintenance to ensure that it continues to operate safely and reliably. You will be solely responsible for ensuring that your gas conversion burner is inspected and maintained. **Failure to do so could result in the gas conversion burner failing, which could result in serious property loss or injury.**

You may schedule a free service appointment for inspection and maintenance of your rented gas conversion burner until March 24, 2020. These optional service appointments are available on a first-come, first-served basis, and will be performed by March 31, 2020. You can schedule an appointment by calling Lease Services at 1-800-421-7368, Monday-Friday, 8:00 AM – 5:00 PM.
