7. Missed	service due to a deciared	public health emergency					
	Upon declaration of a public health emergency, or upon direction by a federal, state, or local authority, solid waste collection companies may alter services for the health and safety of the general public, its customers and its employees. This may include but is not limited to the altering of normal collection and administrative services.						
	The company shall provide notice to the Commission when services have been altered. The company shall take reasonable actions to notify impacted customers of the situation. The company will maintain continuity of service throughout a public health emergency to the greatest extent practicable while conforming to the emergency declaration. The company will return to normal operations as soon as is reasonable given the circumstances of the emergency.						
C.	service date following the r	esumption of normal operation	any on the customer's next regular	extra waste set out			
		cted to accumulate due to the i	nt of extra waste does not exceed nissed service.	the amount that			
8. Defini	tions:						
a.	"Reasonably would be expected to accumulate due to missed service" means, at a minimum, the amount of solid waste represented by the number of missed service(s) multiplied by the customer's subscribed service level. For example, if the company misses two services for a customer who subscribes to one 96-gallon toter, the amount would be the equivalent of 192 gallons (2 services x 96 gallons subscription per service).						
b.	"Next scheduled service d	ate" - this date is defined by e	ach customer's subscription servic	e.			
	Wednesday. If the		weekly service that the company s rice on Wednesday, November 14,				
			daily service. If the company doe heduled service date would be The				
	Wednesday, Nover		every-other-week recycling service not provide service on Wednesday v, November 28.				
c.	Example of how to calculate a credit: Monthly residential service rates are set based on 4.33 services per month. If the company misses one service, the credit is calculated as: .231 (1 missed service divided by 4.33 services per month) multiplied by the service-related component of the monthly rate (excluding disposal and processing costs); provided that the credit for any specific month does not exceed the full rate per month. Any customer credits for missed recycling services will include the recycling commodity credit.
