Hello Patrick,

Thank you for your call. When MP (we) evaluated risk and insurance terms and coverages on the last renewal, the proposal from Zurich was accepted. The umbrella/excess policy offers broader terms at a more competitive premium than an admitted umbrella was offering. The competitive premium amounted to hundreds of thousands of dollars for the company.

It's our understanding that Zurich utilizes Steadfast as the company for umbrella\excess coverage for operations such as MP.

Richard,

I'm going to need a bit more information to evaluate your request. Please provide:

- The contact information (name/address) for the registered broker that represents the surplus lines company.
- A copy of the certificate of insurance showing this \$3M surplus lines policy. Currently the Form E we have on file is for \$2m with Zurich American Insurance Company, policy #BAP7764812. We do not have the a copy of the existing \$3m excess lines policy. Please provide.

The process for considering and granting approval is placing this petition before the Commission at an open meeting. Realistically, this will probably be decided on the April 22 open meeting. These sort of petitions are usually not contentious. You can expect further communication as we move forward with the process.

Richard,

I see why I couldn't find it earlier. Our internal database search isn't quite up to google standards and I was searching for "MP" not "M P". That space made all the difference. I will start the process for the rule exemption that will be needed for surplus lines insurance. Can you provide updated address/phone/email information for our files as well as a good POC for any further information that we may need on this petition for exemption?
