Re: Blue Rock Water Company LLC – 1" Service Connection

Dear Ms. Maxwell,

We are requesting a review of a one-inch service connection contract between Blue Rock Water Company and a customer consistent with the Washington Administrative Code 480-80-143, Paragraph (a) special contracts for water companies for charges that are non-conforming to the company's existing tariff. Blue Rock Water Company operates under the tariff approved by the Commission's order UW-220086 – there is no current provision for the cost to install a one-inch or larger service connection. This customer requested a one-inch service connection as they would like to install fire suppression for their home necessitating a larger service connection.

To facilitate the review we have provided an executed contract between Blue Rock Water and the customer that includes a detailed cost work-up for the parts as quoted by our primary supplier and an estimate of hours to complete the service connection based on the Utility's cost of labor. We have provided a clean copy as the executed version scanned by the customer is of poor quality.

Sincerely,

Sara Dorland
 Finance Manager
