NOTICE OF PROPOSED RATE CHANGE

On August 23, 2023, PacifiCorp d/b/a Pacific Power & Light Company (Pacific Power) submitted an advice filing with the Washington Utilities and Transportation Commission (Commission) requesting a change to Schedule 98, Adjustment Associated with the Pacific Northwest Electric Power Planning and Conservation Act. This schedule provides residential and other qualifying customers with a direct pass-through of monetary benefits received from the Bonneville Power Administration (BPA) under the Residential Exchange Program (REP). Every other year, BPA adjusts this credit, which Pacific Power must implement through a filing. This year's filing results in a decrease to the credit to Pacific Power customers.

If approved by the Commission, this proposed change will result in a decrease to the credit of \$4.1m, for an overall average increase to eligible customers of approximately 2.2 percent. A residential customer using approximately 1,200 kilowatt-hours (kwh) per month would see a bill increase of \$2.85 per month. The Commission will examine Pacific Power's filing. As a result of this examination, the Commission may determine that the schedule should be accepted as filed, modified, or rejected. If accepted as filed, the rate change would go into effect on October 1, 2023.

The following shows the proposed increases for residential customers with different usage levels.

Kilowatt-Hours Per Month	\$ Per Month			
	Present	Proposed	Change	Percent Change
200	22.24	22.72	0.48	2.1
400	36.74	37.69	0.95	2.6
