Re: Basin Disposal of Yakima, LLC - G-45 General Rate Filing & Tariff Revision – New Asset Update

Attached please find Revised Tariff No. 6, as well as supporting documentation for a general rate filing and price adjustment to recover the cost and net book value of assets removed from the last general rate filing, docket TG-230188, as the assets were received after June 1, 2023, the effective date of that filing.

The Company respectfully requests this filing become effective February 1, 2024.

The results of the Lurito-Gallagher Model indicate an increase of \$88,000 or 7.00% is needed. This increase impacts approximately 2,000 residential, 650 commercial, and 60 drop box customers.

Per prior discussion with Staff, the FINAL audited workbook in TG-230188 was used for this filing. No other changes were made other than adding the new assets and costs of this asset update filing. Tabs and cells within the workbook that include these updates are colored purple for Staffs easy reference.

Included in this filing is our non-regulated operation, as our regulated and non-regulated operations share one facility and certain management costs. To protect certain non-regulated proprietary information, we are submitting this filing as confidential, and are filing in accordance with WAC 480-07-160.

A rate increase notification letter was mailed to all customers affected by these proposed changes on December 14, 2023.

A copy of this letter is being sent to the Chairman of the Yakima County Board of Commissioners.

If there are any questions please contact me at 509-544-7709 or Francisco@BasinDisposal.com.

The Company appreciates the Commission's consideration of this matter.

Yours truly,

Francisco Alcala
