implementation of WAC 480-106, Electric companies—Purchases of electricity from qualifying facilities, per General Order R-597 of Docket U-161024. PSE is planning on filing extensive tariff language and pricing revisions to these proposed tariff sheets after the conclusion of the stakeholder review. Because several existing small qualifying facilities need to sign a new Schedule 91 power purchase agreement (“PPA”) when their current PPAs expire at the end of this calendar year, PSE is hoping that the Schedule 91 and associated PPAs can be reviewed and approved before the end of the year.

The tariff sheets described herein reflect an issue date of August 9, 2019, and an effective date of December 7, 2019. Notice and posting of proposed tariff changes, as required by law and the Commission’s rules and regulations, is being completed through web, telephone and mail access in accordance with WAC 480-100-193. The tariff changes proposed in the filing do not increase recurring charges nor restrict access to the optional services under Schedules 91 and 92.
