## REVISED SVWW MANAGEMENT SERVICE COMMITMENT AND WORK HOUR EXPECTATIONS

**JULY 1, 2024**

Effective immediately, Summit View Water Works (SVWW) is increasing the number of hours required for management duties and compensation for its managers commensurate with the experience, time commitment, and responsibilities of those positions.

Thus, as determined by the Board of Directors, Geoff Clark and Kirk Rathbun will now each be paid at the existing rate of \$61.02 per hour and will commit and perform a minimum of 20 hours per week to the management and oversight of company operations.

A current, updated SVWW management job description is attached in reference to these revised responsibilities.
