Rule 6

GENERAL RULES AND REGULATIONS – FACILITIES ON CUSTOMER'S PREMISES

D. RIGHTS-OF-WAY:

The Applicant shall provide without cost to Company all rights-of-way and easements required for the installation of facilities necessary or convenient for the supplying of electric service.

E. ACCESS TO FACILITIES:

The Customer shall provide safe, unobstructed access to Company representatives during reasonable hours to maintain the Company's electric transmission and distribution facilities. The Customer shall also permit the Company to trim trees and other vegetation to the extent necessary to avoid interference with the Company's lines and to protect public safety.

F. ACCESS TO METERS:

The Customer shall provide safe, unobstructed access to Company representatives during reasonable hours for the purpose of reading meters, inspecting, repairing, or removing metering devices and wiring of the Company.

G. IMPAIRED CLEARANCE:

Whenever any of the clearances required by the applicable laws, ordinances, rules, or regulations of public authorities from the service drops to the ground or any object becomes impaired by reason of any change made by the owner or tenant of the premises, the Customer shall at his own expense, provide a new and approved support, in a location approved by Company, for the termination of Company's existing service wires and shall also provide all service entrance conductors and equipment necessitated by the change of location.

H. RELOCATION OF SERVICES AND FACILITIES:

If relocation of service or distribution facilities on or adjacent to the Customer's premises, including Company-owned transformers, is for the convenience of the Applicant or the Customer, such relocation will be performed by Company provided the Applicant or the Customer pays in advance, a nonrefundable sum equal to the estimated installed cost of the relocated facilities, including operating expense, plus estimated removal cost, less estimated salvage and less depreciation of the facilities to be removed.

I. PERMANENT DISCONNECTION AND REMOVAL OF COMPANY FACILITIES:

1. When Customer requests Permanent Disconnection of Company's facilities, Customer shall pay to Company the applicable removal charge as described in Schedule 300 (Removal Charge). The Company shall remove only those facilities that need to be removed for safety or operational reasons, and only if those facilities were necessary to provide service to Customer. However, the removal costs charged to Customer making a request under this paragraph shall not include any amount for any facilities located on public right of way (other than the meter and service drop) or for the removal of area lights which have been installed and billed for a minimum of three years.

Rule 6
GENERAL RULES AND REGULATIONS – FACILITIES ON CUSTOMER’S PREMISES

I. PERMANENT DISCONNECTION AND REMOVAL OF COMPANY FACILITIES: (continued)

- 2. When Customer requests Permanent Disconnection of Company’s facilities and Customer also requests Company to remove specific facilities, Customer shall pay to Company the amounts described in paragraph 1 above, as well as the actual Removal Charge, of any different facilities Customer requests be removed. Notwithstanding the last sentence of paragraph 1, the cost for removal charged to a Customer making a request under this paragraph may include amounts for facilities located on public right of way if Customer specifically requests such facilities be removed. However, the Company will not charge the Customer for the removal of area lights which have been installed and billed for a minimum of three years, even if the removal of those facilities were requested by the Customer.
- 3. Company shall remove facilities pursuant to paragraph 1 and 2 only to the extent it can do so without an adverse impact on the service provided, or to be provided, to other Customers.
- 4. Company shall provide an estimate of the Removal Charges to Customer prior to removal of facilities. The Customer shall pay the amount estimated prior to disconnection and removal of facilities. The facilities shall be removed at a date and time convenient to both the Customer and Company. No later than 60 days after removal, Company shall determine the actual Removal Charge and adjust the estimated bill to that amount.
- 5. For the purpose of Permanent Disconnection and Removal of Company Facilities, the Removal Charge will be determined using the following formula:

$$\text{Removal Charge} = \text{Removal Costs} + (\text{Net Book Value} - \text{Salvage Value})$$

For removed facilities that will be reused by the Company, the Salvage value will be the average price from the Company’s material management accounting system, less any necessary refurbishment costs. If removed facilities are to be scrapped, the salvage value will be determined by scrap salvage rate tables established in the Company’s material management accounting system. For removed facilities that have no remaining value, no salvage value will be provided.

J. MAINTENANCE OF CUSTOMER’S FACILITIES:

Customers are responsible for maintaining their own facilities. If a Customer requests a service call, and the problem is in the Customer’s facilities, the Company may charge for the service call as specified in Schedule 300.

K. OTHER WORK AT CUSTOMER’S REQUEST:

The Company may collect a charge specified in Schedule 300 when it performs work at the Customer’s request.

L. LIABILITY:

Company’s liability shall cease at the point of delivery and the use of electric service beyond said point is at the risk and responsibility of the customer.
