Dockets UE-160918 and UG-160919

Dear Commissioners Danner, Rendal,  
and Balasbas,

As a child of a rate payer I  
want to have a clean environment as  
I grow up. Right now my family  
uses energy made from coal and  
Natural gas which is causing Global  
warming.

When I grow up I want to be  
able to not have to pay for Global  
warming and the deaths of many  
animals. I want to pay for  
Renewable energy / carbon free  
energy, like Hydro power, solar power,  
and wind power. I don't want to  
pay for the end of the world.

sincerely, Alexander London-
