Subject: RE: Siltronic Outfall Inspection Tomorrow

Bob,

EPA supports performing the work under the previously reviewed Dive Plan.

Thanks,

Hunter Young

Subject: Siltronic Outfall Inspection Tomorrow

Hi Hunter,

As we just discussed, NW Natural intends to perform a dive inspection of the Siltronic outfall prior to the pilot study. We just learned that a dive team is available to perform the inspection tomorrow. This is the same contractor that has performed the regular inspections of the Gasco outfall. They

GASCO0051627

will follow the same dive safety and inspection procedures. I've attached the most recent version of the AAC Dive Plan used for Gasco outfall inspections.

Please let me know if we can proceed with the inspection, or if you need any additional information first.

Thank you,

Bob
