7. Is the Staff aware of any electric service provider in another state utilizing banded rates? If so, please identify each provider, the terms of the corresponding banded rates, and any state utility commission orders approving or denying such banded rates.

**Response:**

Hawaii Electric Company (HEC) has adopted a banded rate model for their DC fast charging stations.<sup>5</sup> The tariff allows HEC to set the Mid-Peak Session charge \$ 0.50 between \$5.00 and \$10.00 at \$0.50 increments. Staff has no knowledge of any Hawaii Public Utilities Commission (HPUC) order approving the tariff.
