**Docket UE-210795
Puget Sound Energy
PSE 2021 Clean Energy Implementation Plan**

NWEC AND FRONT AND CENTERED DATA REQUEST NO. 108:
Re: Scope of CEIP

Please provide a citation to, or copy of, each UTC order, regulation, or statute, with specific page and/or section citations, holding or stating that PSE should not, in developing its CEIP, consider:

- a. “Non-resource topics”;
- b. Impacts on nonpayment disconnections;
- c. Impacts on credit and collection activities;
- d. Impacts on the level of arrears;
- e. Impacts on payment patterns, including but not limited to the lag between the day of customer billings and customer payments;
- f. The impact on preserving the stability of customer residency by reducing customer mobility.

Response:

Puget Sound Energy (“PSE”) is unaware of any Commission order, regulation, or statute that states what PSE should not consider in developing its Clean Energy Implementation Plan (“CEIP”). In developing its CEIP, PSE used guidance from relevant laws and regulations, specifically the guidance in Chapter [19.405](#) Revised Code of Washington, the Washington Clean Energy Transformation Act, as well as the guidance listed in Washington Administrative Code (“WAC”) [480-100-600 through 480-100-655](#). PSE focused on the guidance contained in WAC [480-100-640](#), “Content of a clean energy implementation plan (CEIP),” while developing its CEIP.
