*Company Response to Staff Data Request 94, Attachment: Staff
Informal Data Request 7 Re: 2013 IRP Update*

March 17, 2016

WUTC Data Request 7

Please conduct the Emission Control PVRR(d) analyses for the Hunter and Bridger units using the most recent official forward price curve for the Opal natural gas hub, and please provide a spreadsheet showing the official price curve used and its projected price for each year. (Pgs. 115-119)

Response to WUTC Data Request 7

The Company objects to this request as overly broad and unduly burdensome, and seeks evaluation and analysis of information that the Company has not performed. Without waiving these objections, the Company states as follows:

In the 2015 Integrated Resource Plan (IRP), PacifiCorp will examine costs and risks associated with outstanding decisions related to pollution controls on its coal fleet. This analysis will incorporate any new information, such as state and federal implementation plans, and CO₂ expectations.

Please refer to Attachment WUTC 7, which provides the requested price curves.
