Look I understand if this is your only option, then go for it! Easy access on and off post, probably the only company with JBLM access, I hope not. Anyway the Drivers are friendly for the most part. Here is the bad, when we reserved the round trip ticket the receptionist stated that the transporter runs every hour. That's a complete lie!! These assholes at best run every 3 hours. I'm stuck here until twenty pass midnight and my flight landed at 0920. After a long flight the last thing you want to do is wait for your ride. Highly recommend you ask around for a ride or leave your car at a local overnight parking lot..In addition, when we called the receptionist to ask when the next transported was scheduled her response was, didn't you read the sign?!? WTF \$72 dollars could have been better spent some where else.

Kitsap airporter needs to check their business ethics at the door. Completely dissatisfied with the service!
