Dear Secretary,

I wish to oppose the RATE INCREASE WASTE Connections of Vancouver, WA. has applied for. I strongly urge you to have waste connections change to a weight system rather than a can system. Waste Connections already weighs cans and changes accordingly now so it would be much more equitable to change by actual usage than the 1/2 empty 32 gallon can system. IT makes me so angry that I try to recycle and keep garbage to minimum and the 1 day (week) I am over and I get charged extra. This is a poor system for users and a bonus for waste connections! I oppose this increase!

Respectfully

Tony Kastella
