

WA Utilities + Trans. Commission May 23, 2007

TR-070696

BNSF intends to install lights and gates at the Stackpole Rd. crossing in Mount Vernon, WA 98273. They want to cut off the road + access Hickox and Stackpole. The main access for Fire and Emergency is Hickox Rd. Conway Fire will move soon up on the hill, there will be NO Fire - etc. except to go back through town and around to us.

The Crossing should stay open.

Our Access to I-5 Freeway + to Fire Protection will be severely curtailed.

Thank you, John + Charlene ~~Guidinger~~
