The Transportation Need

Briefly describe the transportation system that you need and that the application would provide to you or your business/organization if this request for operating authority is granted.

I am a professional gardener and have a gardening job on Sinclair Island, two to three days a week, 9 months out of the year. I live in Bellingham, WA and currently there is no ferry / boat service from Bellingham to Sinclair Island. I would so value a time/cost efficient mode of transportation which can only happen with ferry/boat service from Bellingham.

Are your transportation needs being met now?

Yes and No. My transportation needs from Bellingham are not being met. To go to work on Sinclair, I need to drive an hour to Anacortes to catch a sea taxi which then takes another hour on the water before I am dropped off at Sinclair Island. Round trip travel time takes up to 4 hours and sometimes more. A ferry/boat service from Bellingham would save enormous time, energy and money.

If the request is denied, would it have any affect on you or your business/organization

Yes: X With the rising cost of gas and the hours demanded with a commute to Anacortes, there is serious reconsideration of continuing the work on the island. I, with others from Bellingham, who have to make this same commute to Anacortes, would be most grateful if there was a ferry service from Bellingham to various islands in the San Juan.
