I am a PSE customer deeply concerned about PSE's plan to lock us customers into paying for a future burning gas! PSE will charge customers over \$10 billion so they can buy carbon allowances and burn natural gas, permitting vast quantities of pollution during the next quarter-century. Ten billion dollars exceeds the cost of maintaining and modernizing the energy grid over that period. In order to do this, PSE rejected viable, alternative plans that would achieve real emissions reductions, stabilize energy costs, and avoid unproven technologies.

I agree with the [Washington Clean Energy Coalition's letter](#), dated May 8, 2023.

Please reject their plan.

Thank you,

Nancy Shimeall

I live on reservation land that has been stewarded for thousands of years by the Swinomish Coast Salish People, and I am grateful that the Swinomish people will continue to hold sacred this land for future generations.
