Ted, this letter will be sent with entitlement bills. Brian

Dear Transportation Customer,

Entitlement penalties are intended to be financial incentives to ensure our transportation class customers are bringing on adequate supplies to cover their natural gas usage and not impose operational harm to Cascade's distribution system integrity. These penalties do not increase the earnings of Cascade Natural Gas Co. All penalty revenue is required to be deferred and passed back to Cascade core customers as an offset to gas costs. As is always the case, Cascade encourages you to work with your gas supply marketing agent to ensure they are bringing on appropriate supplies for your operating needs to prevent future penalties. If you have questions about entitlements or information contained in this correspondence, please contact one of our Managers of Industrial Services.

Enclosed please find the February 2021 Entitlement overrun penalty for the indicated facility.
