**Subject:** RE: Gasco Sediments Site: ISS Field Pilot Study Field Change Request Form #3

Hunter,

As we discussed during our weekly call today, attached please find the slightly revised Field Change Request Form #3. We will determine what additional columns we will target for ISS following completion of the ISS auger rig mechanical repairs. We will forward you a revised figure following finalization of our path forward plan in the next few days. Thanks.

Jen Mott

**Subject:** Gasco Sediments Site: ISS Field Pilot Study Field Change Request Form #3

Hunter,

Attached please find Field Change Request Form (FCR) #3 for the ongoing construction associated with the in situ stabilization and solidification field pilot study at the Gasco Sediments Site Project Area. This FCR requests EPA approval associated with placement of clean cover material within the field pilot study footprint and management of swell material downslope from the field pilot study footprint. Please let us know if you have any questions during your review. Thanks.
