WUTC STAFF DATA REQUEST NO. 076

WUTC STAFF DATA REQUEST NO. 076:

In reference to Tariff Sheet No. 75-L, Installations, the Company states that the customer will pay the costs for all non-standard conditions. Please provide the Company's analysis, for each proposed appliance, of the number of installations, and the percentage of all installations in that category, that will be non-standard.

Response:

Puget Sound Energy ("PSE") objects to WUTC Staff Data Request No. 076 to the extent that WUTC Staff Data Request No. 076 requests PSE to perform a hypothetical analysis and such request is unclear as to what assumptions would be necessary to perform such analysis. Without waiving the objections and subject thereto, PSE provides the following response.

PSE has not conducted an analysis, for each proposed appliance, of the number of installations, and the percentage of all installations in that category, that will be non-standard.
