RE: *Washington Utilities and Transportation Commission v. Puget Sound Energy*,
Docket UG-240884

TO ALL PARTIES:

On November 15, 2024, Puget Sound Energy (PSE or Company) filed with the Washington Utilities and Transportation Commission (Commission) proposed revisions to its rates under electric Tariff WN U-2, Schedule 111 – Greenhouse Gas Emissions Cap and Invest Adjustment. This matter came before the Commission at its December 19, 2024, Open Meeting.

On December 20, 2024, the Commission entered Corrected Order 01 Complaint and Order Allowing Rates Subject to Later Review and Refund; Setting Matter for Adjudication (Order 01) in the above-identified docket. In Order 01, the Commission determined that the tariff revisions might injuriously affect the rights and interests of the public but found good cause to allow the proposed rates to go into effect on January 1, 2025. Order 1 directed PSE to file revised tariff pages no later than December 23, 2024, with added language to Schedule 111 stating that the rates are effective subject to refund pending the Commission's final determination in Docket UG-230968, which concerns a Risk Sharing Mechanism for Schedule 111.

On December 20, 2024, PSE filed revised tariff sheets in Docket UE-240884, as required by Order 01.

On December 27, 2024, Commission staff (Staff) filed a letter in Docket UG-240884 sharing that Staff has reviewed the revised tariff sheets and finds that the revised tariff pages include the additional language required by Order 01.

The Commission agrees with Staff's assessment that PSE's revised tariff sheets filed on December 20, 2024, comply with Order 01. Therefore, these revised tariff sheets shall become effective on January 1, 2025.
