Docket number UE-160918

I am an eighty-three year old woman who has been a PSE rate payer for over fifty of those years. [REDACTED]

It is now time for me to take a stand on what I want to see happen in the future, a future that will impact my children and grandchildren. It does NOT include continuing to rely on fossil fuels nor fracked gas. My ideal future would include renewable energy such as wind and solar technology.

Please listen to your rate payers. We pay for this energy and we deserve to be heard.

Sincerely,

Barbara G. Barbee-Pelzel
