Subject: Gasco Sediments Site Field Change Request Form 3

Hunter,

GASCO0053963

Attached for your review and approval please find Field Change Request Form 3 for the Gasco Sediments Site Spring 2023 ISS lab pilot treatability study investigation. This change is associated with collection of additional vibracores at ISSTS-001, which is a deviation from the EPA-approved *Revised In Situ Stabilization and Solidification Bench Scale Treatability Field Sampling Plan*.

If you have any questions during your review, please contact Ryan Barth.
