I would like to raise my voice in opposition to the continued use of coal energy from the Colstrip MT coal plant.

As a progressive city, it is embarrassing to the residents that we have not LED BY EXAMPLE in getting our power grid off of dirty fossil fuel energy.

Additionally, with so many available renewable energy sources, its silly to not be investing in the future. and I'm NOT talking about hydro power.... there are multiple wind farms that do not have space on the grid to put their electricity, thats just plain stupid.

Do the right thing, represent your people's opinions and change over to renewable energy and stop funding the fossil fuel giant.
