RE: Proposed Electric Rates Increase

Dear WUTC:

We read and understand your reasons for increasing the rates. Those reasons do not change our situation, namely that my husband is topped out at Albertson's making \$20/hour and I am 70 years old with a social security payment of \$881/month. Every bill we pay, not just electric, submits rate increases regularly, but we receive no pay increases to compensate. Thus, our expenses just for insurance, taxes, and utilities eats up more and more of our income.

I am sure you do not have an answer to this problem. We have not found an answer yet. But it is a real problem, and we are quite sure we are not the only people having it. Please add this letter to your file.

Thank you.
