## I. BACKGROUND

### A. The Company's PCA Mechanism Requires Annual True-Up Filings

3. In the Commission's Twelfth Supplemental Order in Dockets UE-011570 and UG-011571 ("Twelfth Supplemental Order"), the Commission approved the parties' Settlement Stipulation for Electric and Common Issues for PSE's 2001 general rate case ("Stipulation"). Among other things, the Twelfth Supplemental Order authorized a Power Cost Adjustment Mechanism ("PCA Mechanism"). Exhibit A to the Stipulation, which was attached to the Twelfth Supplemental Order, sets forth details regarding the original PCA Mechanism, and is hereinafter referred to as the "2002 PCA Settlement."

4. The 2002 PCA Settlement describes the PCA Mechanism as
- a mechanism that would account for differences in PSE's modified actual power costs relative to a power cost baseline. This mechanism would account for a sharing of costs and benefits that are graduated over four levels of power cost variances . . . .

2002 PCA Settlement, ¶ 2. The 2002 PCA Settlement set forth the various levels of costs and benefits sharing between the Company and its customers. *See id.*, ¶ 3.

5. In order to implement its sharing provisions, the 2002 PCA Settlement requires an annual true-up of actual power costs (versus the normalized level set in rates) and an accounting of sharing amounts for Commission review and approval. *See id.*, ¶ 4.

6. In March 2015, following a PCA Collaborative, PSE, Public Counsel, and WUTC Staff (collectively, "Settling Parties") executed a settlement agreement that modified the original PCA Mechanism, including changing the deadline for filing PSE's PCA Mechanism Report from March to April of each year ("2015 PCA Settlement"). The Commission approved the 2015 Settlement Agreement in Order 11, issued in PSE's 2013 PCORC (Docket UE-130617). A copy

of the 2015 Settlement Agreement approved in Order 11 to Docket UE-130617, along with its Attachment A, which summarizes the changes and settlement terms to PSE's PCA mechanism, is attached to this petition as Exhibit A.

## **II. PSE'S 2021 PCA REPORT**

7. In compliance with the 2015 PCA Settlement and Order 11 in Docket UE-130167, this Petition presents to the Commission PSE's Power Cost Adjustment Mechanism Annual Report ("PCA Annual Report") for the twelve-month period from January 1, 2021 through December 31, 2021 for the Commission's review and approval. The PCA Annual Report is being filed along with this Petition.<sup>1</sup> Also being filed with this Petition are the Prefiled Direct Testimonies of Susan E. Free, with supporting exhibits, and Paul K. Wetherbee, with supporting exhibits.

8. Accompanying work papers are also being provided to WUTC Staff, Public Counsel and Alliance of Western Energy Consumers with this filing. As described below, PSE requests that the Commission approve the PCA Annual Report as filed as requested by Ms. Free.

9. As detailed in the PCA Annual Report, the average variable power cost rate during 2021 was \$40.399 per Megawatt hour ("MWh"). During 2021, there were two variable baseline power cost rates in effect. From January 1, 2021 through June 30, 2021 the variable baseline power cost rate was \$34.753, which was approved in Docket UE -190529, PSE's 2019 General Rate Case. From July 1, 2021 through December 31, 2021, the variable baseline power cost rate was \$38.983, which was approved in Docket UE -200980, PSE's 2020 Power Cost Only Rate Case. In 2021, actual power costs were higher than the average of the baseline power cost

rates in effect by \$68.0 million (after adjustment for Firm Wholesale). The amount of imbalance assigned to the Company was \$31.3 million, and \$36.7 million was assigned to customers.

10. The activity that occurred in 2021 resulted in a cumulative under-collection of \$68.0 million. Because PSE requested recovery of cumulative under-collection from inception of the PCA through December 31, 2020 in UE-210806, the cumulative under-collection presented in this proceeding is solely related to 2021 activity. Considering the impact of interest, the total balance assigned to customers is \$38.4 million. *See* page one of Exh. SEF-3.

### III. REQUESTED ACTION

11. PSE respectfully requests that, upon resolution of PSE's 2021 PCA Annual Compliance Filing, the Commission issue an order approving PSE's PCA Annual Report, as filed in this docket. PSE further requests that the Commission approve PSE's proposed methodology, as described in Exh. SEF-1T, for recovering the customer deferral, which when grossed up for inclusion in rates totals \$40.34 million.

DATED: April 29, 2022.
