- 1 On November 26, 2001, Puget Sound Energy, Inc. filed with the Commission certain tariff revisions designed to effect a general rate increase in its rates for electric service in this state. It is indicated that the total effect of such tariff revisions is an increase of approximately \$228,300,000 (16.5%) annually. On December 3, 2001, Puget Sound Energy, Inc. filed with the Commission a Petition for Interim Rate Relief requesting an increase of approximately \$170,727,000 (21.6%) to recover the difference between electric power costs embedded in current general rates and projected power costs for the period January 1, 2002 to October 31, 2002. By order of the Commission, the operation of the general and interim tariff revisions have been suspended pending hearing or hearings concerning all such changes and the justness and reasonableness thereof.

The ultimate issues also include whether Puget Sound Energy, Inc.'s current rates on file and effect with the Commission are just, fair, reasonable, and sufficient. These issues include consideration of alternative rate design or structure. In accordance with the provisions of RCW 80.04.130 the burden of proof to show that the proposed general and interim tariff revisions are just and reasonable shall be upon the respondent.
