DOCKET NO. UT-900726

COMMENTS OF
MCI TELECOMMUNICATIONS CORPORATION

MCI Telecommunications Corporation (MCI), pursuant to Notice No. WSR 90-19-118 dated September 19, 1990, through its undersigned attorneys, submits its comments in the above-captioned matter.

MCI is a full service telecommunications company registered with the Washington Utilities and Transportation Commission (WUTC). MCI is classified by the WUTC as a competitive telecommunications provider, according to RCW 80.36.320. All of MCI's Washington services are listed in MCI's Washington Price List No. 2, which is filed with and approved by the WUTC. As such, MCI, and other full service interexchange carriers, is different and distinct from alternate operator services companies. To clarify this difference, MCI recommends the following addition to WAC 480-120-021 GLOSSARY:

"Alternate operator services company - any corporation, company, partnership, or person other than a local exchange company or competitive telecommunications company providing a connection to intrastate or interstate long-distance...."

MCI has no other comments on the proposed amendments to these sections at this time. MCI reserves the right to submit reply comments if necessary.

MCI thanks the WUTC for this opportunity to comment on the proposed amendatory sections and requests that it incorporate MCI's recommended addition.

Respectfully submitted,

MCI TELECOMMUNICATIONS CORPORATION
