## Share Everything Plan for Small Business

Creating your plan is simple. Add the line access for each device on your account to the account access for your desired data pool.

For example:

An account with four smartphones, two basic phones, two tablets and two notebooks sharing a monthly allowance of unlimited talk, unlimited text and 20 GB of data would only cost \$430 per month, not including taxes and surcharges.

Smartphones (\$40 x 4)	=	\$160/month line access
Basic phones (\$30 x 2)	=	\$60/month line access
Tablets (\$10 x 2)	=	\$20/month line access
Notebooks (\$20 x 2)	=	\$40/month line access
Unlimited talk and text, plus 20 GB of shared data	=	\$150/month account access

**Total monthly charge = \$430 monthly access charge**
