Per my earlier e-mail, rule leads should work with Jennifer, Sharyn, and Records Center to ensure an accurate service list is produced (and maintained) from the various sources (e-mails, letters, phone conversation records, stakeholder workshop participant list, list of those who filed comments--any contact indicating a desire to remain in the loop). Thanks.

Subject: Add a name to the e-mail list

Michael Early called me. He couldn't attend the workshop but he is interested in the process, particularly in alternative forms of regulation. Could, you please, add his name to the list? His e-mail address is: michaelearly@earthlink.net. Hope I got it right!
