Comments I can't make the Hearing and want to appeal to the Washington State Utilities and Transpiration Committee to commit to closing the coal strip in MT by 2015 and replace it with clean energy and no new natural gas. Renewable energy costs have fallen 70% since 2010.... Another renewable energy drop in costs of 20-25% is expected by 2020 so renewable energy is becoming very competitive with fossil fuels. Also Power companies are investing in electricity storage. Thank you for your consideration.
