Subject: UG-200994 Northwest Natural GRC- Motion to suspend procedural schedule

Good Afternoon Judge Doyle,

Commission Staff, AWEC, the Energy Project, and the Company have reached a multiparty settlement in principle in this case. The settling parties motion to suspend the current procedural schedule. If the Commission grants suspension, we also ask that the Commission set a deadline a week after the suspension order is entered for all parties to submit to the Commission a proposal for a new procedural schedule to consider the settlement. Please let me know if you have any questions, I have CC'd all parties on this email, please let me know if I have misstated anything. Thank you,

Nash Callaghan
Assistant Attorney General
Utilities and Transportation Division
