RE: *Washington Utilities and Transportation Commission v. 3Z Movers LLC*  
Docket TV-180198

Dear Mr. Johnson:

On February 21, 2019, Commission staff (staff) provided an evaluation of the Safety Management Plan (SMP) submitted by 3Z Movers LLC in Docket TV-180198. Staff believes the Company took all of the required steps to bring its safety operations into compliance with commission regulations. Based on the Company's corrective actions, staff recommends the Commission not cancel the Company's certificate and extend its provisional operating authority for good cause until staff conducts the ordered follow-up review with the following conditions:

1. The Company maintains a *conditional* safety rating.
2. The Company owner, Boubacar Zida, attends the Commission sponsored household goods training on April 17, 2019.
3. Pay the \$1,900 penalty that resulted from this investigation and is due and payable immediately; however staff would not object to payment arrangements if requested.
4. The Company must achieve a satisfactory safety rating at the ordered follow-up review in 2020 or have it's certificate cancelled.

On February 21, 2019, staff spoke with the company and found that the company accepts the conditions outlined in the SMP evaluation and waives its right to a hearing. Accordingly, staff recommends the commission cancel the brief adjudicative proceeding scheduled for February 26, 2019.
