Utilities & Transportation Commission

2019-2022 Energy Legislation Implementation Plan (final)

Docket U-190485, issued August, 2019

The following is the Commission's plan to implement the various requirements specified in Engrossed Second Substitute Senate Bill 5116 (clean energy), Engrossed House Bill 1126 (distributed energy) and Engrossed Third Substitute House Bill 1257 (energy efficiency), as well as the other legislation adopted during the 2019 legislative session. These statutes require that the Commission develop rules or policy statements, or conduct other work, which, for most processes, must be completed on either January 1, 2021, or July 1, 2022. To meet these timelines, the Commission has organized its multi-year effort into three phases:

- 1) Phase 0 initiated the overall effort and is now complete;
- 2) Phase I covers the period beginning August 2019 and ending January 1, 2021. Phase I includes efforts required to be completed or started by January 1, 2021;
- 3) Phase II begins January 1, 2021, and focuses on those efforts that must be completed or started by June 30, 2022.

Below is a description, by phase, of the Commission's plan to initiate rulemakings, policy inquiries, and other work over the next three years. Some projects occur in multiple phases. We have highlighted work led by other agencies.

As described in Phase 0, below, the Commission sought feedback from stakeholders on work that must be completed before June 30, 2022, and incorporated this feedback into its final implementation plan. The Commission may revise its plan depending on changing circumstances, including staffing resources, workload not associated with the rulemaking, changes in law, or any other unforeseen circumstances.

¹ Chapter references in this document refer to the Laws of 2019, ch. 288 (E2SSB 5116-Clean Energy), ch. 285 (E3SHB 1257-Energy Efficiency), ch. 284 (Hydrofluorocarbon Emissions), ch. 109 (Concerning the Electrification of Transportation), ch. 287 (Advancing Green Transportation Adoption), ch. 235 (Net Metering), ch. 286 (Appliance Standards), ch. 222 (Electrical Production Attribution Fuel Mix), ch. 205 (EHB 1126-Distributed Energy Resource Plans), ch. 388 (Natural Disaster Mitigation and Resiliency Activities), ch. 77 (Electric Utility Wildland Fire Prevention).

Phase 0: July 1, 2019 – August 30, 2019. COMPLETED

- 1. Open Docket U-190485 to issue a Notice of Workshop for stakeholder feedback on proposed process timelines and scope of issues. This docket will only be used for considering stakeholder feedback on process and for gathering an initial interested parties list.
- 2. Open Docket U-190531, Inquiry into Valuation of Public Service Company Property Used and Useful after Rate Effective Date, and issue a Notice of Opportunity to File Written Comments.
- 3. Publish the final plan in Docket U-190485 and on an external agency website. The Commission considered the public's feedback in revising this final implementation plan.
- 4. Close the existing Integrated Resource Plan (IRP) Rulemaking (Docket U-161024) and incorporate remaining components into Phase I and II rulemakings.²
- 5. Close Docket U-190485.

Phase I: August 2019 - January 1, 2021.

Phase I includes the elements that must be completed by January 1, 2021, as required by Section 10 of E2SSB 5116. It also includes other required work, including some that will be started but not necessarily completed by that date.

- 1. Publish the social cost of carbon with inflation rate on the Commission's website by September 15, 2019. This will provide utilities immediate guidance on a significant input in IRPs and conservation plans.
- 2. Issue a Policy Statement in Docket U-190531 on the process for valuing public service company property that becomes used and useful after the rate effective date. The notice was issued on July 5, 2019. The policy statement may include elements of ratemaking adequacy.
- 3. Initiate the following projects, in separate, new dockets as needed:

Project	Scope ³	Timing
Department of	Cumulative Impact Analysis	Began Q3 2019
Health Work	Participate in the Department of Health's work group	
Group	on cumulative impact analysis. (§ 24)	

² The remaining items include IRP Procedural rules, Acquisition (Requests for Proposals), and Distribution System Planning.

³ All chapter references in this document are to the Laws of 2019. Section references in this table are to Laws of 2019, ch. 288, unless otherwise noted.

Project	Scope ³	Timing
Acquisition	E2SSB 5116: Amending WAC 480-107, Resource	Begin Q3 2019,
Rulemaking	Acquisition (Requests for Proposals, or RFP)	Complete Q2
	a. Incorporate existing work on RFPs from Docket U-	2020
	161024.	
	b. Ensure that the E2SSB 5116 standard is met in	
	construction and acquisition of property and the	
	provision of electric service. (§ 5)	
	c. Incorporate resource adequacy considerations.	
	(§ 6(2)(a)(iv))	
	d. Discuss equitable distribution of benefits.	
	(§ 6(1)(c)(iii))	
Joint Markets	E2SSB 5116: With the Department of Commerce,	Expected start
Workgroup	initiate a Carbon and Electricity Markets Workgroup	Q3 2019
	for regular discussions to inform Phase II rulemaking.	
Electric IRP	E2SSB 5116 and EHB 1126: Amending WAC 480-	Begin Q3 2019,
Updates	100-238, Electric Integrated Resource Plans (IRP)	Complete Q4
Rulemaking	a. Update inputs to IRPs (e.g., hydro eligibility and	2020
Docket UE-	tracking; ⁴ resource adequacy; distributed energy	
190698	resources principles from EHB 1126; and demand	
	response).	
	b. Update structure of IRPs.	
	c. Update public involvement process.	
	d. Update outputs of IRP Clean Energy Action Plans.	
	(§ 14(2))	
	e. Incorporate the social cost of carbon into IRPs.	
	(§ 14(3)(a))	
	f. Refine the development of avoided costs to reflect	
	E2SSB 5116 and social cost of carbon.	
	g. Develop resource value test based on review of	
	E2SSB 5116 and social cost of carbon.	
	h. Discuss equitable distribution of benefits. (§ 4(8))	
	i. Discuss assessment informed by cumulative impact	
	analysis, as needed. (§ 14(1)(k))	
	j. Incorporate distributed energy resources elements	
	from EHB 1126. (ch. 205, § 1)	
Energy	E2SSB 5116: Amending WAC 480-109, Energy	Begin Q3 2019,
Independence	Independence Act (EIA) rules	Complete Q1,
Act (EIA)	a. Streamline E2SSB 5116 with EIA rules. (§ 10(3))	2020
Rulemaking	b. Discuss equitable distribution of benefits.	
Docket UE-	c. Discuss low-income definition, if needed. (§ 2(25))	
190652	d. Discuss energy assistance need definition, if needed.	
	(§ 2(16))	

.

⁴ Laws of 2019, ch. 288, §§ 28-29.

Project	Scope ³	Timing
	e. Consider incorporating low-income energy	
	efficiency target.	
	f. Incorporate updates to hydro eligibility and tracking.	
	(§§ 28 and 29)	
Department of	Electric Utility Wildland Fire Prevention Advisory	Expected start
Natural	Committee. (ch. 77)	Q3 2019
Resources Work		
Group		
Renewable	E3SHB 1257: Renewable natural gas provisions	Q4 2019
Natural Gas	Hold a workshop with stakeholders to discuss	
Workshop	commission expectations around renewable natural gas	
_	proposals. (ch. 285, §§ 13 and 14)	
Report to	Greenhouse Gas Emissions from Natural Gas. (ch. 285,	Q4 2019
Legislature	§ 16)	
Department of	State Energy Strategy Advisory Committee	Expected start
Commerce	Participate in the Department of Commerce's advisory	Q4 2019
Advisory	committee on the development of the state energy	
Committee	strategy. (§ 22)	
Department of	Energy Transformation Projects	Expected start
Ecology	Participate in and consult with the Department of	Q4 2019
Rulemaking	Ecology's rulemaking on energy transformation	
	projects. (§ 10)	
Department of	Energy and Climate Policy Advisory Committee	Expected start
Commerce	Participate in the Department of Commerce's advisory	Q1 2020
Advisory	committee charged with the development of climate	
Committee	policy. (§ 23)	
Clean Energy	E2SSB 5116: New Chapter, Clean Energy	Begin Q1 2020,
Implementation	Implementation Plans (CEIPs)	Complete Q4
Plans (CEIP)	a. Provide guidelines for Clean Energy Implementation	2020
Rulemaking	Plans. (§ 6)	
	b. Discuss equitable distribution of benefits. (§ 4(8))	
	c. Develop incremental cost methodology at the	
	beginning of the rulemaking. (§ 6)	
	d. Address reporting and compliance, and the penalty	
	process. (§ 9(1)(a))	
Department of	Thermal Renewable Energy Credits	Expected Q2
Commerce	Participate in and consult with the Department of	2020
Rulemaking	Commerce's rulemaking on the use of thermal	
	renewable energy credits. (§ 10)	
Begin natural	E3SHB 1257: New Chapter; Amend WAC 480-90-238	Begin Q2 2020,
gas IRP and	a. Adopt natural gas energy efficiency rules. (ch. 285, §	Complete Q2
conservation	11)	2021
rulemakings	b. Adopt social cost of carbon for conservation. (ch.	
	285, § 15)	

Project	Scope ³	Timing
Energy Facilities	Transmission Corridors Work Group. (ch. 288, § 25)	Expected Q3
Site Evaluation	Participate in the Energy Facilities Site Evaluation	2020
Council Work	Council's work group on transmission corridors.	
Group		
Department of	Provide consultation to the Department of Ecology's	Expected Q3,
Ecology Report	Report on Reducing Hydrofluorocarbons and	Q4, 2020
to Legislature	Increasing Use of Refrigerants with Low Global	
	Warming Potential. (ch. 284, § 8)	

Phase II: January 2021 – June 30, 2022.

Phase II includes rulemakings required by E2SSB 5116 with deadlines after January 1, 2021, and the completion of rulemakings associated with implementing E3SHB 1257 that have an implementation date of January, 2022. It also lists other work that must be started or completed within this time frame.

1. Initiate the following projects, in new, separate dockets as needed:

Project	Scope	Timing
Continue natural gas	E3SHB 1257: New Chapter; Amend WAC	Begin Q2 2020,
IRP and conservation	480-109-238	Complete Q2 2021
rulemakings	a. Adopt natural gas energy efficiency rules.	
	(ch. 285, § 11)	
	b. Adopt social cost of carbon for	
	conservation. (ch. 285, § 15)	
Cumulative Impact	E2SSB 5116: Amending WAC 480-100-	Begin Q1 2021,
Analysis Rulemaking ⁵	238, Electric IRP rule	Complete Q4 2021
	Amend IRP rules to incorporate the	
	Cumulative Impact Analysis. (ch. 288, §	
	14(11))	
Carbon and Electricity	E2SSB 5116: New Chapter, Carbon and	Begin Q2 2021,
Markets Rulemaking ⁶	Electricity Markets	Complete Q2 2022
	Define requirements for load met with	
	market purchases. (ch. 288, § 13)	
	Coordinate with the Department of	
	Commerce.	

⁵ This rulemaking will rely on a cumulative impact analysis developed by the Department of Health. The deadline for the cumulative impact analysis is December 31, 2020 (SB 5116, § 24).

⁶ This project will begin with a stakeholder work group in 2019, in cooperation with the Department of Commerce. Commerce will conduct a concurrent rulemaking on the same topic.

Project	Scope	Timing
Report to Legislature	Greenhouse Gas Emissions from Natural	Q4 2022
	Gas. (ch. 285, § 16)	
Department of	Report on Standards Review, Reliability,	Complete Q4 2023
Commerce Report to	Emerging Tech, and Impacts. (ch. 288, § 8)	
Legislature	Provide consultation to the Department of	
	Commerce.
