Re: Docket UT-120451
Comments in support of ending mandatory delivery of telephone directories

Dear Commissioners:

I support the proposed amendments to WAC 480-130-251, which would eliminate the requirement that telephone books be delivered to each customer of a Local Exchange Company. The amendments allow customers to choose whether to receive print directories. Thank you for proposing an affirmative "opt in" system.

Sincerely,

Jeanette L. Henderson
